PA SYSTEM & MONITORS

A high quality PA-system is required. The system must be capable of delivering a clean and undistorted sound, with a uniform coverage of the venue. It must be totally free of hum and noise. Mixer must include two (2) sweepable mid filters and 48 V phantom power. 4 identical wedges, on 1 system.

MICROPHONES

We bring our own microphones, Neumann KMS 105 and AKG D5.

STAGE NEEDS

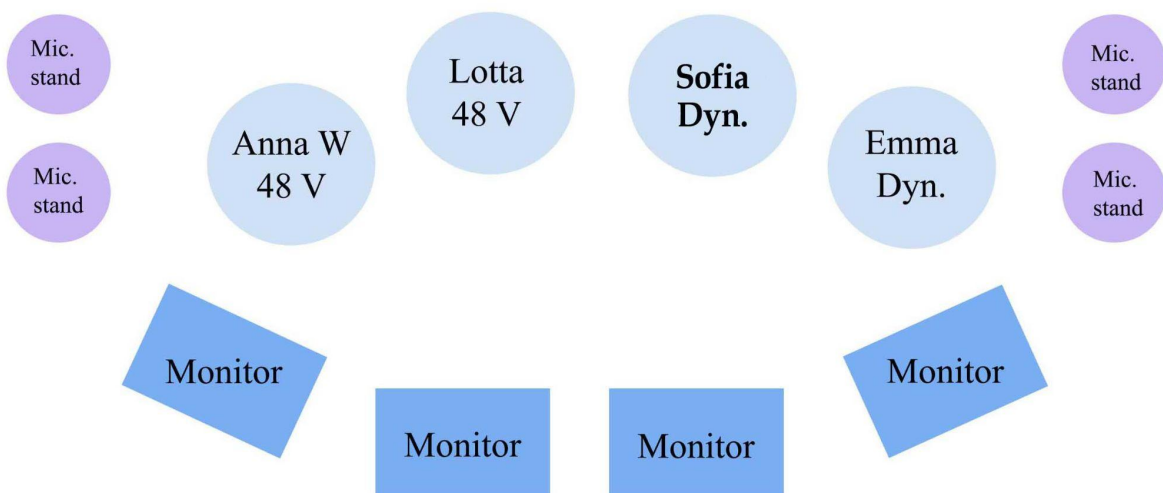

4 microphone stands of the same type, 2 on each side of the stage.

SOUND & LIGHT ENGINEER

An experienced sound engineer familiar with the system is required for both sound check and performance. An experienced light engineer familiar with the system is preferred for both sound check and performance.

SOUND CHECK

Minimum 30 min. We prefer to have 45 min and to do the sound check 2 hours before the show.
